Business card slits

Please note all folders are supplied flat for easy storage and transportation. They also come automatically with business card slits. For templates with multiple business card slits locations, please leave the slits the one location you require and remove the extra slits. If you do not require these please select "Remove Business Card Slits" in the finishing options on the product page and remove from the downloadable template when designing the artwork.

! All folders come with business card slits. Please remove in finishing options on product page if not required
