

ACCEPTED FILE FORMATS

FORMATING FILES FOR SUBMISSION

Supported files

We only accept print ready PDF files, up to the maximum limit of 500MB per file. Any files that are over 500MB will need to be compressed. You can use a free compression tool at smallpdf.com and ilovepdf.com. Compressing the file size should not decrease the quality of your PDF if it has been formatted using high-quality content.

PDF creation

When creating PDF's to submit for print please use a recognised PDF-Maker such as Acrobat Distiller. Using a design package's own PDF maker may result in your job being rejected. Always save as a High Quality or Print Quality PDF. If using Acrobat Distiller, choose PDF/X-1a:2001 from the drop-down list. When creating your PDF please embed all fonts.

Always view your PDF with Output Preview and open before submitting it for print. As this gives the most accurate representation of how the file will look once printed and may flag up errors that aren't visible without Output Preview open.

If you are having trouble creating a PDF, smallpdf.com provides online tools to solve common problems.
