Together We Are Stronger Poster Campaign

Let's show the NHS some support **#TogetherAtHome**.

Thanks for downloading our poster. Not only is this a fun activity the whole family can get involved in but a way of showing the NHS how much they are appreciated!

Print out multiple copies for members of your family and link together to make the chain grow. Add flair and creativity to the background in any way you like... let the graphic designer in you go to town! Just remember to leave the chain in the same position so the link is not broken when placed next to other people's posters.

Here's how you can help:

Once you have coloured in the poster, share them with your friends and social media and encourage them to join in using the hashtag **#TogetherAtHome**. Don't forget to tag **Where The Trade Buys** so we can find and share your posts!

The pressure the NHS staff are under at the moment is unimaginable. Let's share these posters enough times so our unsung heroes get to see the support they have behind them and put a smile back on their face.

We look forward to seeing your artwork!
