

# STITCHED BOOKLETS

## SUPPLYING GUIDE FOR YOUR BOOKLETS

### PAGES

Stitched Booklet page totals must always be divisible by 4, supplied to us as a multipage PDF. This must run in the correct order as the finished printed booklet, from front to back cover. For example if you are supplying artwork for an 8-page booklet please supply either **1** two PDF's, one for the COVER which contains 4 pages and one for the TEXT which contains 4 pages. Or **2** one MERGED PDF containing all pages of the booklet together.

### SUPPLYING YOUR BOOKLET EXAMPLE

#### PDF 1 (COVER)

#### PDF 2 (TEXT)

#### PDF (MERGED)

The closer you get to the centre pages of a booklet, the more has to be trimmed off the page edges.

Our imposition software does make allowances for this. However, it is recommended that you do not have text (especially page numbers) or images too close to the edges of your booklet pages. A gap of at least 5mm is recommended on all edges.

Avoid content which crosses two adjoining pages
